DATE: December 21, 2006  
TO: School Food Authorities (SFAs)  
FROM: Christine Emerson, School Nutrition Programs Director  
SUBJECT: Update of Software Approved for Nutrient Analysis

This is to inform you that as a result of the memorandum issued by the U.S. Department of Agriculture, the Accu-Scan Division has incorporated the most recent version of the Child Nutrition Database - Release 10 into the *Meal Tracker Menu Planning* software. *Meal Tracker Menu Planning* does meet the USDA requirements for use in conducting nutrient analyses for Nutrient Standard Menu Planning and in meeting School Meals Initiative requirements.

The Food and Nutrition Information Center updates the official list of USDA-approved software according to the software evaluation coordinator's recommendations. The expiration date for the *Meal Tracker Menu Planning* software was removed from the official list once the evaluation coordinator confirmed that the requirement was met. The current list of USDA-approved software programs can be found at:
